Both parties

AGREE TO THE FOLLOWING

Enter into this credit contract by virtue of which the Creditor provides the companies aforementioned in this document as the Credit receiving parties, credit with a maximum of the present Line Credit , forcing to the Credit receiving party or parties, in a manner that will be mentioned later, to reimburse the amounts they have available in their account as well as interests, commissions, taxes and expenses, even ones of a legal nature, which are generated as a consequence of this contract, until they are fully settled as per the following

CLAUSES

One. Limit.

The maximum limit of the credit will beEuro (....., Euro), during the duration of the credit, and the Credit receiving party or parties accept the amounts made available to them by the Creditor, with the commitment to repay said credit within the time frames and in the manner and conditions agreed to in this document.

Two. Duration.

This credit will have a duration that is between the date of this contract and the effective date.

Extensions to the contract shall be reported to the Market Operator

Notwithstanding the agreed duration, the creditor has the right to consider the credit has matured, and will notify the Credit receiving party/Agent and the Market Operator at least five days prior to the date set by the Creditor as the anticipated maturity date of the credit, requiring at this time to settle all pay obligations contracted with the Credit receiving party or parties when any of the following circumstances occurs:

The setting in these cases of a maturity date that is after the communication date is a result of the final nature of this credit and is granted to provide guarantee coverage of the obligations entered into by the Credit receiving party or parties as a result of their participation in the gas system.

In this sense, the Market Operator, prior to the maturity and in accordance with this document, may provide the amounts in the authorisations that are in force even if one or several of the Credit receiving parties, as a result of legal proceedings or any other circumstance, are not in full control of their assets.

Three. Distribution of the credit (To be added in the case of more than one Credit receiving party).

The limit of the amount of credit may be set, indiscriminately and individually, by one, several or all of the Credit receiving parties, establishing only that the total amount to be used and authorised by the Credit receiving party or by each Credit receiving party to the Market Operator, plus what is actually set by Market Operator in favour of the Credit receiving party or each Credit receiving party and not reimbursed to the creditor, may not exceed the total amount of the Credit.

Four. Accounts (To be added in the case of more than one Credit receiving party).

The amount of the Credit made available for each Credit receiving party will be respectively deposited in the credit accounts opened by the creditor. These accounts are in the name of each one of the Credit receiving parties and are listed below:

- › Company A., acct.. no. 10-xxxxxx-x
- › Company B., acct.. no. 10-xxxxxx-x
- › Company C., acct.. no. 10-xxxxxx-x

In each account, we have debit and credit items respectively, on the one hand we have the amounts made available and charged to said credit if applicable, the interests that are accrued as per this contract and the commissions and expenses that the Credit receiving parties must settle and on the other hand, those provided for settling the remaining balance.

(The Credit receiving parties from this moment forward expressly agree for the Creditor to be able to modify the number of operating accounts mentioned above, as long as said modifications are made for operating, accounting or organisational reasons internal to the creditor or due to changing the office where each one of the Credit receiving parties operates from, without said modification entailing any renewal of the rest of the contractual conditions nor of the obligations agreed to in this contract by the parties) Inclusion selected by the Participant.

The aforementioned modification, which in no case shall incur any cost for the Credit receiving parties, will be communicated by the creditor to the affected Credit receiving party and to the Agent via any type of notification as long as there is proof of receipt. The notification shall specify the new account number and the date when said account will be active.

Each Credit receiving party will be liable to the Creditor for the amounts that have been deposited in their account as mentioned above, and each of them will be obligated to repay the creditor the account balance at all times as agreed and especially at the maturity date of the contract.

None of the Credit receiving parties will be liable before the creditor to repay the balance of the accounts for other Credit receiving parties.

Five. Provisions (Drafted based on one or more Credit receiving parties).

Considering the destination of the credit, the Credit receiving party/each Credit receiving party, irrevocably authorise, only Market Operator to have access to the credit, through the persons and in compliance with the conditions that will be described further along in this document.

To this aim, the Credit receiving party or parties, via the Agent, will notify the Creditor of the amount made available to the Market Operator, by means of the Creditor issuing an irrevocable authorisation to provide the amount requested by the Credit receiving party/each Credit receiving party, to the Market Operator, in the manner mentioned in Appendix A

The total amount requested by the Credit receiving party/all the Credit receiving parties, plus what is made available by the Market Operator and not reimbursed to the Creditor, may not exceed the total limit of the credit.

In order for the Market Operator to make the provision, notwithstanding what is stipulated in the «Maturity Guarantee» clause, the following is required:

The provision must be made to settle the obligations contracted by the Credit receiving party/any of the Credit receiving parties in accordance with what is stipulated in the MIBGAS Derivatives Rules.

The provision order must be accompanied by a written letter sent by Market Operator to the Creditor, communicating the delinquent deposits of the amounts due by the Credit receiving party or parties, in the manner described in Appendix B.

One or several cash provisions may be applied to each authorisation that is in force, in such a manner that the total sum of the provisions applied under an authorisation may in no case exceed the amount of said provisions as long as it remains current and as long as the circumstances for initiating a provision as described in this contract are met.

Likewise and prior authorisation from the Market Operator, you may modify the amount of an authorisation by initiating a new provision authorisation from the creditor to the Market Operator as requested by the Credit receiving party/Agent or you may remove the existing authorisation after having processed the guarantees that the Market Operator requires at each moment via the authorised methods listed in the MIBGAS Derivatives Rules.

If the Market Operator has the line of credit available, once the circumstances described for said provision as listed above have been met, or in accordance with the «Maturity Guarantee» clause, the Credit receiving party or parties will be required to replace the funds made available by the Market Operator to the Creditor no later than 5 working days after the date in which the provision became effective or after the contract maturity date if sooner. The Insurance Provider

DECLARES

The Insured Party, in an unconditional and irrevocable manner, before the Market Operator up to the maximum amount of this surety insurance, as joint guarantee to ensure compliance with each and every one of the obligations contractually agreed by the Insured Party as a result of their intervention in the MIBGAS Derivatives segments operated by MIBGAS Derivatives, including any current taxes and applicable fees required to be settled at the time of the payment, in accordance with the MIBGAS Derivatives Rules and its Annexes (hereinafter MIBGAS Derivatives Rules), and rest of applicable regulations.

The Insurance Provider is established jointly with the main debtor for paying all amounts due by it as a result of said participation, with an express waiver of the benefits of order, excussion and if applicable, division and where this guarantee has an abstract nature and therefore the Insurance Provider cannot object to avoid paying and especially, may not raise any objection derived from the underlying relationship between the Insurance Provider and the Insured Party.

Delinquent premium payment by the Insured Party, whether it is the only one, first or subsequent, will not give the Insurance Provider the right to terminate the insurance contract, nor will the contract be considered terminated, nor the coverage provided suspended, nor will the Insurance Provider be released from their obligation if required to make any payment.

Payment will be made when initially requested, after the Market Operator has notified the Insurance Provider in writing regarding the non-compliance by part of the Insured Party, indicating in this written notification the current account where the applicable payment must be deposited, in a manner that, if the Market Operator requests payment from the Insurance Provider, then the Provider may settle payment with the creditor no later than the next working day in Madrid, following the payment request from the Insurance Provider.

In case that the validity date has been filled as 31/12/2222, it will be understood that this surety insurance extends its validity until the Market Operator authorises its cancellation. Otherwise, the present surety insurance will extend its validity until the effective date inclusive, being null and void after this last date. After this date, the Insurance Provider will not be liable for anything related with the Surety Insurance, even though it originates from obligations contracted or applicable prior to the established valid-to-date and without requiring to return the original document.

Any time the Insurance Provider has this document in their possession, it will be understood that there are no pending responsibilities arising from the described surety insurance and therefore, said guarantee may be cancelled.

Prior to the fifth business day in Madrid prior to the expiration of the surety insurance certificate, the Agent must replace the current guarantee in force with a new guarantee before the Market Operator from

the ones allowed in the MIBGAS Derivatives Rules, according to the models published in the Guide “Access to MIBGAS Derivatives”. If after the fifth business day in Madrid prior to the expiration or non-renewal of this guarantee, the Agent has not replaced this guarantee with another guarantee contemplated in the MIBGAS Derivatives Rules, the Market Operator will proceed with the execution of this guarantee up to the amount necessary to cover the obligations of the Agent in accordance with the provisions of the MIBGAS Derivatives Rules.

In case of a discrepancy, contradiction or inconsistency between the terms and conditions stipulated in this document and the applicable insurance contract signed between the Insurance Provider and the Insured Party, this document will take precedence over what is stipulated in the aforementioned insurance contract.

The Market Operator reserves the right to request the Insurance Provider to confirm the terms of the surety insurance at any time, in order to ensure full force and effect conditions which allow its execution. The Insurance Provider must respond to this request within a maximum period of twenty calendar days.
