

PROFILE OF MARKET ANALYST TECHNICIAN, MIBGAS

Call for candidacies: September 2022

> COMPANY

MIBGAS is the organised gas market operator in the Iberian Peninsula, responsible for its operation and economic management. Spot, prompt and future gas and LNG products are traded on its platform for the Spanish and Portuguese gas systems, while it also manages the Spanish Gas System Guarantees system.

> POSITION

MIBGAS is looking for people with two to five years' experience in the sector for the position of Market Analyst Technician.

RESPONSIBILITIES

- Collaborating in the management of market processes and monitoring the correct functioning of trading platforms.
- Participating in the analysis of gas and energy markets and the monitoring of market results and fundamentals.
- Designing and specifying new operating processes, collaborating with service providers and on business development projects.
- Support in MIBGAS business development and opportunities.
- Dialogue with market agents, price publication agencies and collaborating with company training and dissemination events.

EDUCATION AND EXPERIENCE REQUIRED

- University bachelor's degree in engineering. A master's degree in energy markets is preferable.
- Knowledge of the energy sector and relations with energy trading/risk departments will be a particular plus.
- Two to five years' experience in companies related to energy, trading/risk and markets in general.
- Results-oriented, proactive, multidisciplinary, able to work in a team and with good communication skills.
- Good command of English (C1). Knowledge of Portuguese will also be appreciated.

Please send your CV to personal@mibgas.es.

CVs received will be incorporated into the database of MIBGAS. Sending them to us implies acceptance of the [MIBGAS privacy policy](#).
