

IT PROFILE

> COMPANY

MIBGAS is the Operator of the Organized Gas Market in the Iberian Peninsula, responsible for its operation and the economic management of its services. Its platform lists *spot*, *prompt* and futures products of natural gas with physical delivery, as well as liquefied natural gas on plants.

> HIRING PROCESS

MIBGAS is seeking a Market Processes and Technology Analyst, who will be reporting to the Front Office Department, whose mission will be to analyze, design and specify the processes related to the Natural Gas/LNG market platforms, and collaborate in the continuous improvement and reliability of MIBGAS business processes, according to the strategy set by the company.

JOB DESCRIPTION

- Analyze operational and business processes and recommend improvement solutions for optimal business performance efficiencies.
- Design and specify new operating processes collaborating with service providers.
- Preparation, execution and automatization of test protocols.
- Coordination of ongoing business development projects.

TRAINING AND EXPERIENCE REQUIRED

- University degree in engineering. Master in energy markets and knowledge of information systems (databases, SQL, webservices, APIs, etc.) will be valued.
- Knowledge of test automation tools (Selenium) and user experience design (UX Design) and statistical packages (R).
- Results oriented, proactive, multidisciplinary, team worker and with great communicative skills.
- High level of English (C1).

If you are interested in applying, please send your CV to personal@mibgas.es.

CVs submitted by candidates will be included in MIBGAS database. The [privacy policy of MIBGAS](#) is thereby accepted.
